

They're finally back! Ten years after the remarkable "Now is the Time", **Two Tone Club** comes up with an **excellent new long player** titled "Don't Look Back".

After a successful collaboration with Victor Rice (New York Ska Jazz Ensemble, The Slackers, The Adjusters) and Brian Dixon (Aggrolites, Western Standard Time) The ninth rudies have had the privilege of working with Mister **Tony Platt** himself (Bob Marley, Toots & The Maytals, AcDc ...)

Recorded at 'Daft Studio' in Belgium mixed and mastered at 'Le Studio' and 'Air Studios' **in London**. This 14 tracks album tends to perfection. Delivering more fine examples of the band's trademark edgy, claustrophobic 2 tone goodness, as well as stretching out to incorporate top notch northern soul vibes, killer organ driven old school reggae & catchy upbeat trad ska.

Formed in 1999, Two Tone Club has toured in **15 different countries** since. Playing in massive festival : Eurockennes (F), Mighty sound Festival(CZ), The London International Ska Festival (UK), Berlin Ska City Festival (D), Estavayer le lac (CH) as small venues, but always delivering a tight show with the same energy, over than **5 hundred times** drawing thousands of **enthusiastics people**.

Led by Mista Black, his charismatic lead singer, the band knows how to raise the temperature, with a musical style distinct from their contemporaries, they combine the highly danceable ska and rocksteady beat with punk's energy and attitude.

From Avril 2018 there will be throughout Europe performing extracts from the new album live. For this the audience will be able to enjoy a mind-blowing show!
